- 1) Add part to click on (Top's add(+)) button but first select platform in dropdown
- 2) Added data show in table.
- 3) Add edit button for edit data, delete button for delete data and update for update checkpoint, img
- 4) part no, part name, image_path, severity, attribute, highlight, location, ocr_operation and select model codes based on selected platform
- 5) For part same part with different model duplicate part number
- 6) Add custom part to add custom parts like severity, attribute, highlight, concerns, location and user level

Update Screen(Update Checkpoint, img Screen)

The screenshot shows a modal window titled "Update Checkpoint, img" with a close button (X) in the top right corner. Inside the modal, there is a file selection area with a "Choose File" button and the text "No file chosen". Below this is a section titled "Checkpoint Text (Optional)" with a text input field containing the placeholder "Enter checkpoint description...". Underneath is a section titled "Select Models to Update" with a search input field labeled "Search model code...". At the bottom of the modal are two buttons: "Update Selected" and "Cancel".

- 1) Update Checkpoint, img Screen for automatic updating parts associated checkpoint and image only for models which are connected to that part
- 2) Enter checkpoint, upload img and select models to apply changes

Checkpoint Screen

The screenshot shows the "Checkpoint Screen" dashboard. At the top is a navigation bar with links: Platforms, Model Codes, Parts, Checkpoints, Parts Connection, Employees, Reports, Shifts, Actions, and Admin. The date and time "06/10/2025 18:10:49" and a "Logout" button are on the right. Below the navigation bar is a filter section with a "+" button, a "Platform:" dropdown set to "T-Block Z101", a "Model Code:" dropdown set to "AZ1116YJT2A4FA01 (SCORPIO-N ...)", a "Search checkpoint..." input field, and a "Search" button. The main area contains a table with the following data:

Model Code	Model Description	Part No	Part Name	Checkpoint	Image	Edit	Delete	Select
AZ1116YJT2A4FA01	SCORPIO-N D MT 2WD Z2 7S_Z111	1	Front Bumper	1. FRT Grill Black color applicable (Camera Not applicable) 2. Fog Lamp and DRL not applicable as per image 3. FRT Skid plate - Black color applicable as per image 4. Bumper as per body color applicable	No Image	Edit	Delete	☐

Below the table is a "Delete Selected" button. At the bottom of the page is a footer with "Contact | Manual".

- 1) Add checkpoint to click on (Top's add(+)) button) but first select platform in dropdown and model codes
- 2) By default, the selected model and its description will already be filled in.
- 3) While adding checkpoints firstly select the part from dropdown
- 4) write checkpoint
- 5) Upload the image related to the checkpoint.
- 6) If you want to add image processing for that part, select it form image processing dropdown
- 7) Added data show in table.
- 8) Add edit button for edit data ,delete button for delete data.
- 9) The search box to find data checkpoint-wise or part-wise

14. For adding employee click on top's (+) button.
15. In that dropdown select user level Supervisor, operator.
16. Add token no and employee name.
17. Employees Data show in table
18. Edit button to edit data.
19. Delete button to delete data.

Reports

You can access all reports by clicking the **Reports** button

1). VIN Detail Report

- 1) You can generate a report by applying filters such as **status**, **QC number**, **date**, **month**, **year**, **platform**, **shift**, **operator**, and **model code** (based on the selected platform). The results will be displayed in both a pie chart and a table.
- 2) To generate the report after applying filters, click the "Generate Reports" button.
- 3) To export the report as an Excel file, click the "Export Excel" button
- 4) To export the report as a PDF file, click the "Export PDF" button
- 5) To remove all applied filters and start over, click the "Clear Filter" button
